

KAWASAKI BILLET SEAT NUT KIT

2021-24 KX250 / 2019-2024 KX450 / 2021-23 KX250X /

2023 KX450X

RECSN01-BK (BLACK)

RECSN01-SL (SILVER)

INSTALLATION INSTRUCTIONS

The REC MX seat nuts are designed to be an OEM replacement and use the OEM bolts. Remove the OEM bolt and OEM seat nuts. It will take a little bit of force to push the REC MX seat nuts into the fender opening. It is best to remove the side number plate but leave the seat in place. Once you get the nut lined up with the bolt hole, use the bolt with a washer or spacer against the seat tab and tighten the bolt to pull the nut into the fender. Remove the washer or spacer (if used). Re-install the side number plate and tighten the seat bolt to the OEM specified torque.

DISCLAIMER: All REC MX products are inspected prior to packaging. Our guarantee is limited to the replacement of defective products and its components only. This limited guarantee is for manufacture defects only for 30 days from date of purchase. Buyer assumes all risk for any and all damage caused to him or herself, a third party and/or property by virtue of this product. By installing and/or using a REC MX product, you hereby accept and understand these stated terms and conditions and have followed all instructional steps. Thank you.
